

**NAME**

ned – full-screen editor with windows

**SYNOPSIS**

```
ned [file_name]
```

**DESCRIPTION**

The *ned* macro runs the editor with the same name in a sub-shell. It is the editor of choice for the developers of *spec*.

The source code to *ned* is available by request from Certified Scientific Software, but comes with no guarantees.

**DEFINITION**

```
def ned 'unix("ned $*")'
```

**EXAMPLE**

```
ned my.mac
```
